

Setting New Standards!

The Humminbird® brand is well respected for producing high quality, innovative marine electronics products that their customers have come to depend on. In pursuit of continued excellence Humminbird® uses Juki electronics assembly equipment in the production of their printed circuit boards. Juki equipment builds complex circuit boards reliably and accurately ensuring that Humminbird's® products are always ready for any challenge.

"Our Juki equipment is extremely dependable and user friendly. Juki gives Humminbird® the flexibility to continue to set new standards in marine electronics and exceed our customer's expectations. Juki is the right fit for our strategic business plan."

*-Peter J. Walker,
Electrical Process/Test Engineering Manager
Humminbird®*

Call Juki today to discuss how we can partner with you in setting new standards in your production capabilities that will allow you to exceed your customer's expectations, outperform your competition, and grow your business.
